<b>Abstract.....</b>	<b>(I)</b>
<b>Functional area of the brain.....</b>	<b>(I)</b>
<b>Different parts of the cortex have different functions.....</b>	<b>(I)</b>
<b>The lateral fissure.....</b>	<b>(II)</b>
<b>Functions of the Cerebral Lobes.....</b>	<b>(II)</b>
<b>Temporal Lobe.....</b>	<b>(III)</b>
<b>Occipital Lobe.....</b>	<b>(III)</b>
<b>Mapping BrainAsymmetry.....</b>	<b>(IV)</b>
<b>Language.....</b>	<b>(IV)</b>
<b>Handedness .....</b>	<b>(V)</b>
<b>Neurochemical Asymmetries.....</b>	<b>(V)</b>
<b>Macroscopic Anatomical Asymmetries.....</b>	<b>(V)</b>
<b>Asymmetries in Microscopic Anatomy.....</b>	<b>(VI)</b>
<b>Q. Why is the brain asymmetrical?.....</b>	<b>(VII)</b>
<b>Composite Brain Maps. ....</b>	<b>(VIII)</b>
<b>Factors that Affect Anatomical Asymmetries.....</b>	<b>(IX)</b>
<b>Fetal Orientation. ....</b>	<b>(X)</b>
<b>Heredity and Environment. ....</b>	<b>(X)</b>
<b>Aberrant Asymmetries and Disease. ....</b>	<b>(X)</b>
